

## *Desert Diggers*

*Burrowing owls  
In the ground  
When it's night safe and sound  
Then the owls  
Goes on the prowl  
They catch their food  
When they're in the mood  
They grasp their prey  
Not in the day  
They eat the cricket  
In the thicket  
The insect they steal  
Is their meal  
The sun rises  
The owls quit  
They have their prizes.*
